Patronage

Under the patronage of

His Excellency Eng.

Abdulrahman Abdulmohsen AlFadley

Minister of Environment, Water and Agriculture

Chairman of the Board of Directors of the National Livestock & Fisheries Development Program

Under the Supervision of

National Livestock & Fisheries Development Program

The Livestock Future Expo & Conference 2027 will be held for the first time in the Kingdom of Saudi Arabia, in Riyadh. It is the premier platform dedicated to advancing and showcasing investment and innovation opportunities in livestock prossesed products.

The event brings together producers, manufacturers, investors, technology providers and industry experts under one roof to explore the latest industrial solutions, strengthen value chains, and foster partnerships that contribute to building a more sustainable and profitable future for this vital sector in the Kingdom of Saudi Arabia.

Why Saudi Arabia?

Saudi Arabia is undergoing a significant transformation in its livestock sector, with national strategies focused on maximizing the economic value of livestock resources through the development of livestock processed products. This approach contributes to enhancing food security, diversifying sources of income and supporting the objectives of Saudi Vision 2030.

The livestock processed products sector is considered one of the most promising industries, offering substantial investment and industrial opportunities through the full utilization of animal resources and their conversion into high-value food, industrial and commercial products. These processed products are derived from meat, cattle, camels, sheep, poultry, fish, dairy products and hides and skins.

Why is the world investing in Saudi Arabia’s livestock processed products sector?

First: Saudi Vision 2030

- Supporting the development of food and processed products and increasing their contribution to GDP
- Enhancing economic sustainability and maximizing the utilization of local resources
- Encouraging innovation and advanced technologies within the livestock sector and its related industries

Second: Strong Government Support for Investment

- Incentives and facilitation programs for local and international investors
- Financing and support programs through government entities and development funds
- An attractive investment environment that promotes the growth of food processing and manufacturing industries

Third: A Growing Consumer Market

- Increasing demand for processed and premium-quality food products
- Growth in the food and beverage sector driven by population growth and tourism expansion
- Significant opportunities for expansion and export to regional and international markets

Fourth: Strategic Location and Advanced Infrastructure

- A modern logistics network connecting the Kingdom to key global markets
- World-class transportation, port and airport infrastructure that supports industrial growth and export activities
- Saudi Arabia’s position as a regional hub linking Asia, Africa and Europe, enabling efficient access to international markets

Livestock Future Expo & Conf.
مؤتمر ومعرض مستقبل الثروة الحيوانية

Conference & Expo Objectives

Focus on the future development and advancement of livestock processed products industries in the Kingdom.

Establishing an international platform that brings together policymakers, investors, experts, and technology companies to advance livestock value chains.

Exploring the latest global technologies in food manufacturing, animal genomics, biotechnology, and sustainability.

Promoting investment opportunities and strategic partnerships between the public and private sectors, as well as with global companies.

Supporting the transition to a circular economy through enhanced utilization of animal by-products and waste.

Enabling research and development and facilitating the transfer of knowledge and advanced technologies to the Saudi and regional markets.

Supporting the growth of small and medium-sized enterprises and entrepreneurs in the livestock and value-added processing sectors.

Strengthening collaboration among academia, research institutions, and the processing industry to develop sustainable solutions for the future.

Conference Topics

Livestock Processed Products
Advancing livestock processed products to increase economic value and achieve long-term sustainability.

Animal Protein Processing
Developing innovative animal protein products to meet market demands and strengthen food security.

Veterinary Services
This topic focuses on the importance of disease prevention and treatment, as well as strengthening vaccination programs to protect livestock from epidemic and infectious diseases.

Logistics Services
Enhancing logistics services to improve the transportation, distribution and market accessibility of livestock products efficiently and reliably.

Showcasing Successful Local and International Experiences
Sharing success stories from livestock development projects that have contributed to the growth of the sector across different countries.

Genomics and Its Applications in Livestock Improvement
This topic highlights the role of genomics in understanding the genetic makeup of animals and applying this knowledge to improve productivity, health, and breeding outcomes through smart crossbreeding, genetic selection and advanced biotechnology solutions.

Exhibitors

- Universities & consulting firms
- International & local companies
- Government & semi-government entities
- International & regional organizations

Target Sectors

First: Animal Processing Products

Processed Cattle Products
- Meat
- Leather
- Dairy products
- Cheese
- Bones

Processed Camel Products
- Meat
- Leather & camel hair
- Dairy products
- Bones

Processed Sheep Products
- Meat
- Leather & wool
- Dairy products
- Cheese
- Bones

Processed Poultry Products
- Meat
- Eggs
- Feathers
- Feet & Legs

Processed Fish Products
- Fish meat
- Fish oil
- Protein extracts
- Animal feed & organic fertilizers
- Marine gelatin

Processed Meat Products
- Sausages
- Canned products
- Burgers
- Steaks
- Smoked meat products
- Mortadella

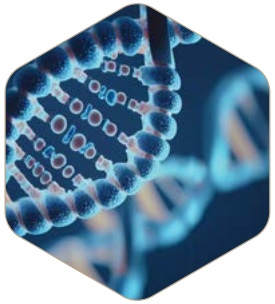
Dairy-Based Processed Products
- Dairy products
- Butter
- Cream
- Cheese
- Labneh

Leather-Based Processed Products
- Bags
- Footwear
- Furniture
- Belts
- Folders

Livestock
Future Expo & Conf.
مؤتمر ومعرض مستقبل الثروة الحيوانية

Target Sectors

Second: Livestock Production and Genetic Improvement



- Modern Breeding Technologies and Smart Farm Management
- Artificial Insemination and Embryo Transfer Centers
- Animal Genetic Improvement and Breeding Centers
- Resource Sustainability and Productivity Enhancement Centers
- Genomics and Artificial Intelligence Applications in Livestock Production

Third: Veterinary Health and Pharmaceutical Technologies

- Biosecurity, Traceability, and Animal Health Monitoring Companies
- Veterinary Vaccine, Pharmaceutical, and Advanced Therapeutic Technology Companies
- Veterinary Healthcare Services and Disease Prevention
- Epidemic Management and Enhancement of Animal Product Safety
- Laboratory Diagnostics and Veterinary Biotechnology Centers

Fourth: Animal Nutrition and Feed

- Feed Additives and Animal Nutritional Supplements
- Sustainable Alternatives for Feed Ingredients
- Feed Manufacturing Companies and Feed Efficiency Solutions
- Livestock and Poultry Feed Marketing Companies
- Advanced Feed Manufacturing and Storage Technologies
- Precision Nutrition and Feed Conversion Efficiency Enhancement

Fifth: Raw Animal Products

- Importers of Red and White Meat Products
- Companies Trading Local Red and White Meat Products

Target Sectors

Sixth: Slaughtering, Processing & Manufacturing Equipment

- Meat and Dairy Processing Plant Equipment
- Slaughtering, Skinning, and Meat Cutting Lines
- Packaging and Packing Solutions for Meat and Dairy Products
- Freezing and Rapid-Chilling Equipment

Seventh: Farm Equipment and Technology

- Cleaning and Sanitation Equipment
- Farm Ventilation and Climate Control Systems
- Cooling and Storage Equipment
- Automated Milking Systems
- Food Packaging and Filling Systems
- Production Lines
- Meat Cutting Machinery
- Smart Farming Technologies (IoT) and GPS Livestock Tracking Solutions

Eighth: Sustainability and Environmental Solutions

- Renewable Energy Systems for Farms
- Farm Waste Management and Organic Fertilizer Solutions
- Emissions Reduction and Water Management Solutions

Ninth: Services and Consultancy

- Livestock Transportation and Logistics Companies
- Livestock Insurance Companies
- Agricultural and Bank Financing Services
- Veterinary and Management Consultancy Services
- Universities and Scientific Colleges

Who Attends the Expo?

The expo attracts a broad spectrum of industry professionals through targeted promotional campaigns including senior executives, factory and operations managers, procurement specialists, engineers, researchers and other industry leaders from leading global companies involved in red and white meat processing, animal feed production and advanced livestock technologies.

To strengthen international participation, the exhibition collaborates with international trade associations, accredited embassies in the Kingdom, specialized media outlets and various strategic partners to attract high-quality buyers and decision-makers from around the world.

The Expo and Conference will provide a dynamic and knowledge driven platform for generating valuable business opportunities, building long term partnerships and connecting with industry leaders in one location.

- Academics, researchers and industry experts specializing in livestock and animal production from across the Kingdom and around the world
- Importers and suppliers of red and white meat products
- Meat processing and manufacturing companies
- Representatives of international and regional medical, veterinary and livestock organizations and associations
- Veterinarians and veterinary assistants from both public and private sectors, within and outside the Kingdom
- Business owners, senior executives, and decision-makers
- Manufacturers of veterinary medicines and vaccines from local and international markets
- Students and trainees from universities, colleges and specialized institutes both locally and internationally
- Livestock breeders and farm owners
- Government entities
- Investors and entrepreneurs
- Media professionals and stakeholders interested in health awareness

More Than Just an Expo
